204s and the other the forms created thus far (REOC supports field ops). The actual incident org chart (Area/Incident Command) is still pending per R8's lead.

Here is R8 iap. Joni said it is draft. If I send you the doc version of 204, can you / start update it for Monday? If not enough time, we'll do it here. THX

Hi Harry/Althea,

We've developed a modified R8 Incident Action Plan (IAP), and want to get your thoughts on how we need to coordinate on this. Does it need to go through Area Command? Do you want us to add info for your regions in addition to what we have? The document is very bare bones at this point, and will be improving over the coming days. Let us know asap so we can continue with distribution! Thanks!
